

Crypto CEL IFA

Crypto-CEL is a direct IFA kit using a monoclonal antibody specific for a cell wall protein of *Cryptosporidium* oocysts in faecal specimens, water or sewage samples.

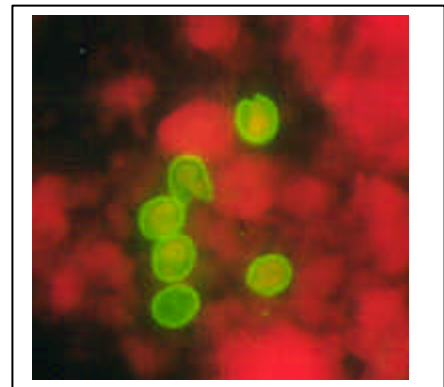

Clinically reliable

Reliable *Cryptosporidium* test
Control slide included in the kit
Convenient for use on single or few specimens (no reagent waste)

Ideal for environmental tests

Can be used on filtered water samples or sewage samples
Excellent fluorescence and clearly observable morphology for easy pathogen detection

Reliable *Cryptosporidium* detection

- Highly specific (100%) for *Cryptosporidium*
- Rapid results (30 minutes incubation)
- Ready-to-use reagents
- 50 tests kit format with long shelf life
